

Shiro Prana by Esthetica is a premium head spa bed designed to combine hair washing, scalp treatments, Korean Head Spa Treatments, and Shirodhara on a single multifunctional platform. This luxury electric head spa bed provides a seamless and efficient solution for delivering comprehensive head spa and scalp wellness treatments. Ideal for salons, spas, wellness centres, professional massage studios, and Ayurvedic clinics, it combines functionality, elegance, and practicality while enhancing therapist efficiency and client comfort. Its backrest-lifting mechanism allows the angle of inclination to be adjusted, allowing for easy client ingress and egress, and providing greater comfort throughout every treatment session.

KEY FEATURES

One-Touch Operation with End-of-Treatment Function

Shiro Prana's intelligent controls move the height and backrest to position on a single press, with no continuous pressing required. The one-touch End-of-Treatment function returns the bed to its default position at the close of every session, keeping the therapist's hands free and every treatment consistent.

Multiple Treatments, One Platform

Shiro Prana handles a full menu of head and scalp rituals — head spa, scalp therapy, Shirodhara, and scalp massage — on a single system, so one treatment room can offer clients a complete range of head spa & wellness experiences without compromise.

Low-Access Height with Elevation up to 1 Metre

The bed lowers to a low access height for effortless client ingress and egress, then elevates up to 1 metre, giving therapists excellent ergonomics to conduct treatments comfortably whether seated or standing, across longer treatments.

Veridura Phthalate-Free Upholstery

Shiro Prana is available in Veridura Phthalate-Free Upholstery, designed for professional spa environments, offering a safer surface for both clients and therapists. It resists stains, acetone, and disinfectants, withstands frequent cleaning, and ensures durable, fire- and abrasion-resistant performance.

FEATURES

Backrest	Electronically Adjustable
Height	Electronically Adjustable
Basin	Ceramic Basin with Neck Rest
Foam Cushion	Deep Multi-Density Foam Mattress

TECHNICAL SPECIFICATIONS

Length	1730 mm / 80 in
Width	810 mm / 31 in
