

The Marut is Esthetica's premium four-motor electric treatment table, built for the demands of hotel and resort spas. Electronic adjustments for the backrest, legrest, height, Trendelenburg, and reverse Trendelenburg put complete control at the therapist's fingertips. Gas spring-assisted armrests that lower and swing sideways create the freedom to work with precision and ease, while a detachable footrest extends versatility to foot massage and pedicure treatments — making the Marut equally at home across every service on the spa menu.

KEY FEATURES

Memory Positioning

The Marut's programmable handset stores therapist-defined positions that can be recalled with a single touch, saving time between treatments and allowing therapists to maintain consistency across every session.

Lowerable & Swing-Away Armrests

The Marut's gas spring-assisted armrests can be lowered and swung sideways, giving therapists unrestricted access during full-body treatments while ensuring guests remain in a natural, comfortable position throughout.

Detachable Footrest

The Marut's detachable footrest enables flexible configurations to support a wider range of treatments — from full-body massage to dedicated foot care and pedicure services — with ease and convenience.

Veridura Phthalate-Free Upholstery

The Marut is available in Veridura Phthalate-Free Upholstery, designed for professional spa environments, offering a safer surface for both clients and therapists. It resists stains, acetone, and disinfectants, withstands frequent cleaning, and ensures durable, fire- and abrasion-resistant performance.

FEATURES
